

This bibliography contains more than 700 references of English, French and German handbooks, articles or conferences directly or indirectly relating to amicable dispute resolution (ADR). It is designed to offer a didactic instrument at the disposal of all the future actors of ADR : Bar associations, Judiciary, Universities, Chambers of Commerce and Industry, HR, and any other circles interested in and dealing with conflict resolution or prevention. The objective set out has obtained the support of the Hans Wilsdorf Foundation.
